

A better environment inside and out.™

Advanced Safety & Security Window Film

Advanced Safety & Security Window Film is an intensive, hands-on, two day installation workshop. This course specializes in the technical aspects of safety and security film and includes practice of the installation techniques needed for installation. The curriculum is highly interactive and provides for necessary one-on-one attention needed to develop hands-on skills.

This course is recommended for anyone who has completed the Mastering Architectural Window Film course and has prior experience in the window film industry.

Some of what you will learn during the course:

- Understand the installation techniques for heavy gauge safety and security film (4 mil and higher) technical and performance aspects of safety film for protect of persons and property.
- Introduction to wet glaze attachment installation techniques such as Dow 995 & GE 4000.

Prerequisite: Mastering Architectural Window Film Course

Enrollment Fee: \$595.00 per person

Each attendee will receive:

Solar Gard Certificate of Completion "Advanced Safety & Security Window Film"
