

A better environment inside and out.™

Solar Gard® Solar Window Film: Reference

Solar Gard® Sentinel Plus SX50 (in Flanders, Belgium)

Solar Gard improves home owner comfort

Effective, yet almost invisible on the glass, with a beautiful discrete tone

Project Information

Location: Flanders, Belgium

Problem: Excessive heat on sunny days

Solution: Solar Gard® Sentinel Plus SX50

Dealer: Carlens Visual Projects, Solar Gard. Visit: carlensvisuals.com

Year of installation: 2015

A couple with their precious baby built their dream house in Flanders, Belgium. The south facing windows offer a great view and permit plenty of sunshine to enter the living room and kitchen. However, this great design comes with a problem. On sunny days the heat makes the house very uncomfortable.

Solar Gard SX50 external window film was the perfect solution to this problem.
