Building & Location:

Dubai Maritime City's (DMC) facilities, DP World, UAE

Problem:

Excessive heat, glare and energy consumption

Solution:

Solar Gard Silver 20
3 000 m²

Solar Gard Partner:

Solar and Safety
www.solarandsafety.com

Year of installation:

2021

Etihad Energy Services Company (Etihad ESCO), an energy services company and a subsidiary of Dubai Electricity and Water Authority (DEWA), has signed an agreement to retrofit buildings at DP World, UAE Region's purpose-built maritime centre, Dubai Maritime City's (DMC) facilities. The agreement is part of the cooperation and strategic partnership between the two

organisations in sustainability and energy efficiency.

Solar Safety has installed 3,000 sqm Solar Gard Silver 20 on DMC main office facade. The project was successfully completed by Solar Safety in 20 days.

In this approach Saint-Gobain Solar Gard has contributed to reducing the energy consumption inside the building while keeping the thermal comfort for the employees.
